

## reflecta Film Scanner Super 8 – Normal 8

It has never been easier to digitize and save old film treasures: Select between Regular 8 and Super 8, load the film into the scanner and start it.

The film is scanned frame by frame at a rate of two images per second and is written as an MP4 video in HD quality directly onto an SD card.

### No computer is needed!

The digitized film can be played on all smartphones, tablets or PCs. The scanner can also be connected directly to a TV to playback the movies.
