## In-Ceiling Passive 8" Subwoofer

Delivering a stand-out bass response, the In-Ceiling Passive 8" Subwoofer brings a whole new dimension of detailed clarity to music and movies. With a discrete design that allows for space-saving ceiling placement, the NV-SUBIC8 adds a powerful low-frequency impact to smaller home theater or audio installations. It is an infinite-baffle design to allow maximum placement flexibility. A round magnetic grill is included and a square magnetic grill (NV-RGIC8-SQR) is optional.

- Discrete ceiling-mounted passive 8" subwoofer ideal for small to medium sized audio installations
- Installation-friendly infinite baffle design
- Pair up with optional NV-SUBAMP100-xx amplifier
- Round magnetic grill included. Optional square magnetic grill (NV-RGIC8-SQR).
- Up to two subwoofers may be used with optional NV-SUBAMP100-xx amplifier
- Lifetime warranty
- Space-saving design

The NV-SUBAMP100 optional matching amplifier offers maximum versatility with a small size and wall-mount capability. The pair are designed to integrate with almost any audio system. The NV-SUBAMP100-xx features signal-sensing power activation to automatically turn on the subwoofer when it detects a signal from the receiver. It will return to standby automatically after approximately 15 minutes of no signal. Unfiltered LFE / RCA stereo as well as speaker-level inputs let you easily connect the amplifier to most modern receivers. And a convenient two conductor connector can power an optional wireless receiver. The variable crossover and phase controls allow you to match the Subwoofer output with the main speakers for premium performance and sound. A three-position EQ switch allows the amplifier output to be tailored to any Nuvo in-ceiling or in-wall passive subwoofers. One or two NV-SUBIC8 subwoofers may be used with one NV-SUBAMP100-xx. Please wire subwoofers in parallel when connecting two units to one amplifier.

NV-SUBAMP100
