

reflecta Digitization HD-Slide-Duplicator

With **reflecta HD-Digital Slide Duplicator** it is easily possible to photograph your slides with a digital camera, DSLR camera or SLR camera.

Just screw HD Digital Slide Duplicator with suitable stepping ring on the lens and you can start.

By using the slide holder you can adjust the slide in front of the lens. Now adjust the right exposure and the right picture detail and capture – **ready!**

The recommended focal length is 70-105mm for Full Frame or 55-70mm for APS-C. The recommended aperture is f/11.

HD-Digital Slide Duplicator is not qualified for lenses with rotating front lens.
